Comments from the CEO

Increased sales but deteriorated result due to restructuring

As new CEO, I am working with the Board to re-evaluate the strategic priorities, assets and resources to support long term growth.

Sales to our partners (customers) have not developed to expectation due to long decision making processes for end customers within Anoto Products. Compared to the same period last year sales are somewhat lower, partly due to delays in delivery within C Technologies, but also because we have not had any single large order as we had in 2009. I am optimistic about the future though, since signals from our partners indicate growth.

Partner recruitment and other activities within Anoto Products are carrying on well. The new AFS 2.0 platform launched in the last quarter has been favorably received in the market, but has not yet generated any large sales volumes.

Technology & Licensing continue to develop very satisfactorily and within this area sales increased by 80 % up to MSEK 18. Deliveries of digital pens are increasing and so are royalty revenues from new customers successfully selling their products based on our technology.

Net sales for the second quarter were MSEK 48 (44) and the result was MSEK -28 (-6). During the second quarter a restructuring has been done, resulting in some employees leaving the company. The result is i.a. due to restructuring costs of MSEK 12 including change of CEO.

C Technologies' product deliveries have been delayed due to lack of components in the international market and sales are therefore slower than expected. The order situation looks good, however, and we expect to recover the delays during the fall.

Sales of components, ASICs, reached MSEK 4, which is somewhat higher than last year. Orders for these products vary a lot over time and the development is declining.

The gross margin dropped to 61 % (78), partly due to the fact that hardware is an increasing part of sales, but also due to depreciation of surplus of certain components in stock. However, I anticipate the gross margin to be increasing for the rest of the year.

Our cash decreased by MSEK 7 during the second quarter and was MSEK 79 at the end of the period. The selling of a larger part of Imaging Technology by the end of 2008 has been finally settled during the period. The cash flow of the operating activities was negative by MSEK -5.

Outlook

The positive sales development in the application area Technology & Licensing is progressing well and according to plan. The application area Anoto Products has longer sales cycles in the enterprise market, but is starting to gain momentum as the global financial crises eases. As we are re-evaluating the strategic priorities, assets and resources, I am optimistic that Anoto products and technology will be profitable for Anoto and our customers.

Net Sales 2007 - 2010

EBIT 2007-2010

Cash flow 2007-2010

A partner-driven business model

The Anoto organization is divided into two application areas, Anoto Products and Technology & Licensing. Anoto Group receives revenue in five different categories: licensing, royalty, digital pens, components and NRE (Non-recurring engineering).

Net Sales per income category

Amounts in MSEK	2010 Apr-Jun	2009 Apr-Jun	2010 Jan-Jun	2009 Jan-Jun	2009
Licensing fees	10	11	19	25	49
Royalty fees	7	4	16	9	19
Digital pens *	24	21	46	46	89
Components	5	4	8	16	22
NRE and Other	2	4	6	11	27
Total	48	44	95	107	206

* Digital pens include C-Pen

Application area - Anoto Products

Amounts in MSEK	2010 Apr-Jun	2009 Apr-Jun	2010 Jan-Jun	2009 Jan-Jun	2009
Net Sales	26	32	49	70	128
Gross profit	18	24	35	49	86

Anoto Products focuses on systems, products and services that target businesses, primarily in the field of forms processing. Anoto has an indirect business model and markets its products through partners, such as system integrators, software developers and IT consulting firms, all of which offer customized solutions with Anoto technology to their corporate customers. Turnkey products, such as existing scanning and translation pens, as well as newly developed products may also be marketed through other sales and distribution channels.

Sales development in Anoto Products has been disappointing so far this year. We have delivered digital pens and received royalties for a large number of small and medium sized projects. So far this year we have not seen any larger orders like the ones we had in the beginning of 2009. We do, however, contribute to a number of discussions with partners and their end customers on projects containing large deliveries of digital pens as well as licensing.

The AFS 2.0 platform was launched earlier this year. It is a platform with increased functionality, such as encryption and improved user administration focusing on installation of digital pens in large enterprises/end users. During the second quarter we have delivered several platforms to old and new partners.

The development within C Technologies and the sales of C-Pen products are satisfactory. The products are marketed under their own as well as under customer brands (OEM). Sales have also during the second quarter been negatively affected by delivery problems from our

manufacturers. The order inflow continue to be good and we expect during the fall of 2010 to recover the delivery delays we have had during the first part of the year.

OVUM, an independent research company, conducted a technical review describing Anoto Forms Solutions (AFS) as a ground breaking technology with a potential to revolutionize methods for data entry collection, especially for mobile workers. The OVUM report describes AFS as a non obtrusive technology well suited to a broad range of business scenarios.

During the latest quarter Anoto has participated in a large number of trade fairs and conferences in the Healthcare sector both in North America and in Europe. Here Anoto’s digital pen technology is greatly noticed.

Application area - Technology & Licensing

Amounts in MSEK	2010 Apr-Jun	2009 Apr-Jun	2010 Jan-Jun	2009 Jan-Jun	2009
Net Sales	18	10	38	27	63
Gross profit	13	7	28	18	49

Customers within Technology Licensing develop and sell products based on technology and digital pens provided by Anoto. The customers of the end products are both individual consumers and enterprises.

Such products are learning toys, educational tools, visual communication equipment and personal productivity solutions. Several of these products are interactive, enabling real-time audio or visual feedback while writing or when touching interactive areas in books, on paper, whiteboards and flipcharts.

For the past two years Anoto has established co-operation with several companies in visual communication and education. These enterprises now use Anoto’s technology in their niche areas developing their own products. We are now experiencing the effect of these co-operations in increased sales of digital pens and increasing royalty revenues.

Customers in this application area, i.a. PolyVision, Acco Brands Europe, Plus and TStudy continuously order digital pens for their products.

Royalty income from LiveScribe (www.livescribe.com) for the first quarter in 2010 is part of the report for this period.

Anoto Group AB

As a pure holding company, Anoto Group AB has a limited number of corporate functions. Sales for the second quarter were MSEK 1 (-1), while the pre-tax profit was MSEK 0 (0). At the close of the quarter liquid assets, including current investments amounted to MSEK 0 (1). Investments came to MSEK 0 (0).

Accounting policies

This interim report was prepared in accordance with IAS 34, Interim Financial Reporting. For information about the accounting policies applied, refer to the 2009 annual report. The accounting policies are unchanged from those applied in 2009.

Risk factors and uncertainties

No significant additional risks are deemed to have arisen beyond those described in the 2009 annual report for the Anoto Group. (Please see Note 2 for a detailed presentation of the company's risk exposure and management.)

Share data

The company's share is listed on the NASDAQ OMX Nordic Small Cap List in Stockholm. Shares numbered 128,583,867 at the end of the first quarter. No warrants are issued.

Options program

At the moment Anoto has no outstanding warrants or other incentive program.
